

Religion has played an important role in shaping America's past and present and will continue to do so in the future. If your group is interested in learning more about religion's role in American life from an expert in the field, Dr. Weber is available to speak to your organization—church, school, or community group. You can count on his presentations to be researched, thought provoking, relevant, and enriched by his "story-telling" ability.

Sample Topics

- **American Religion: Separating Fact from Fiction**
